Jesus told his disciples, "If anyone would come after me, let him deny himself and take up his cross and follow me. For whoever would save his life will lose it, but whoever loses his life for my sake will find it. For what will it profit a man if he gains the whole world and forfeits his soul? Or what shall a man give in return for his soul?"¹

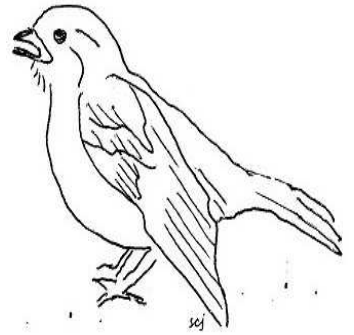

I. THE STORY -- 'BROKEN WING'

1. THE MOST BEAUTIFUL SONG IN THE WORLD

There was once a plain brown sparrow that had a broken wing. It dragged its extended wing over rocks and through pine needles and grass as it scampered and hopped after bugs and such. The sparrow feather-ruffled a shallow indentation in the dirt, then tucked its head under its broken wing at night, and sipped the morning dew from fuzzy leaves.

One day a big, black wolf spotted the little bird that could not fly away. Frozen with fear, the sparrow's spirit lifted up a plea to God for help, as it watched the wolf approach. God's loving grace showed the little bird that the wolf was not the problem. The broken wing was the sparrow's problem.

"I cannot hate my bone, God," the little bird sighed. "I cannot fix my wing, but I can sing." And sing he did, the most beautiful song in the world. The love of creation for its creator was carried on the wind to ears of a man in the nearby woods. Never having heard such a beautiful sound, he followed the bird's song to discover its appearance. As he drew close, he saw movement in the bushes not far away, the bird froze, and the man's gun fired a shot that stayed the wolf.

Old, faded, dried leather hiking boots, faded blue jeans, and a stained-wood gun-butt on a fire-blackened barrel crunched across red lava cinder stones toward the frozen sparrow. The man had no name to that bird, just the loud crunch of big boots, a strong odor, and the bird's new problem, a large hand.

Fear squelched any pain, as the man examined the broken wing. The bone had knit the wing extended, and there was nothing he could do but take the bird home, or leave it there. He crumbled bread crust and poured a bit of water in a wrapper, weighted down by a rock, then went upon his way.

The cage was there at home on a closet shelf, at the back. The man pulled it out. He set the scratched aqua wire cage, with its newspaper covered bottom, on a table by the window, with its door shut.

A few days later the man with old boots and faded jeans walked the same trail to see if the bird was still there. Again he heard its beautiful song, which he followed, to find the broken wing sparrow hidden under a low branch among tall grass. He left it food and water again, and went upon his way.

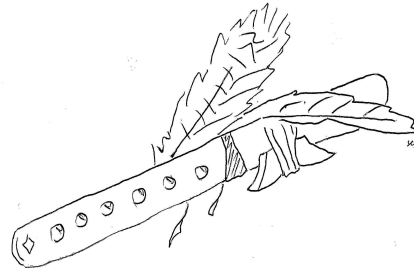

The man's visits to the bird with the broken wing continued for months, the seasons passed and the little bird could not fly to warmer climate for the winter. He had left the bird cage on the table by the window with its door open, but every time he listened to the sparrow's sweet song, carried on a breeze among the trees, he knew he could not cage it. So, he left his house and made a lean-to in the woods near the bird, and listened to its song.

Then one morning the little bird didn't sing, and the man cried. He didn't bury the bird in the dirt, he covered it with stones and listened to the silence. He stayed in the woods for awhile, hiking, whittling, and watching, but the silence grew and he returned to his home for the winter.

In the spring the chirping birds outside the man's window stirred a longing in his heart to hear the beauty of the song from the broken wing sparrow. Knowing it was gone, he returned to the woods and hiked to find the stones he'd buried it under moved around, exposing the song bird's skeleton and feathers. He picked them up and stared at the fused wing bones, from which such lovely music had comforted his soul.

2. A FLUTE, A SKY DANCE, AND SOCIAL WELFARE STATE

Tenderly the man wrapped the feathers with the broken wing bone in his bandana, and sadly he buried the little bird's remains in the dirt, over which he placed a heavy boulder, upon which he sat and whittled. The flute he made was fine. Its tune was sweet, but nothing compared to that of the sparrows.

Well, the days passed and the man's life was routine, plain, simple, calm. He liked it that way and gave thanks to God for it. He also gave thanks to God for the beautiful songs he had received from the broken wing sparrow, and would ask God to bless his own songs with such beauty.

Then one day it occurred to the man that he should carry the feathers he had saved from the broken wing bird, and let them fly on the wind. So, he made a little cut in the hem of his jacket for the feathers and fused bones, and carried them with him everywhere he went. When the wind was strong and he could get high enough above the ground, he'd let a feather fly, and sing a song of praise to God. At first they were little songs, but by the time he was ready to let the last feather fly, his songs were strong and from deep within his soul.

So, in the strength of his spirit, he drove two days into the high desert and found an amazing rock peak to climb high above the trees. And climb he did, by toe and finger grasp, until he was way up in the sky. Then he watched that last feather fly, until he could see it no more. But, he could not sing. So, he took his flute out of its case, but he could not play it either. So, he tied it to a branch where the wind could blow through it, and he knelt down on that rock. Then, while listening to the wind sound through his flute, he took the sparrow's broken wing bone, laid it on the rock he knelt on, and ground it to dust with a chunk of the same rock. He sat awhile and watched the dust whirl across the rock until it blew into the sky. Then the song was gone. Or so he thought.

Now all the while the man had been atop the giant rock, he had felt no sorrow and no praise to God. So, he stripped his clothes from his body and unbraided his long hair in the wind. Then he stood against the sky with outstretched arms, his long hair whipping in the wind, that pushed through his skin and filled his bones with song, and he was refreshed. He opened his mouth and let the wind fill it, and a new sound came forth from his lungs. A song of anguish that he did not know was in him, welled up and left. And the wind blew his eyes to tears, while the man danced in the sky atop a high rock, and rain began to fall.

Cold and befuddled, the man's spirit met his mind again, but the wind had blown his clothes away, and naked he had to descend from stormy sky. Down slippery rocks, through mud and pine needle branches, he scrambled on numbed and aching feet to his truck, where he found the key he'd hidden on its frame, and he got inside of it. Wrapped up in the seat cover, he turned the heater on and headed for his home. Unfortunately, when he was seen by cops, wearing a seat cover and changing a flat tire on the outskirts of town, they stopped with a predetermined decision, not interested in his explanations, and definitely not in his song.

Well, the Social Welfare State wrapped the man in rules and documents, and trapped him with judgments of pharmaceuticals and treatments, encased in cement, iron, gray enamel paint, and the hum of electricity. They zoned him on alternative-reality films and cloned him under social authority. With nanobyte microchipped meds, that attached to his organs, replacing their natural physiological functions, he got dummied down and stayed calm.^{9,18,21}

3. AUTUMN PLACE OF REST, PSYCH-MEDS AND MENTAL HOSPITAL CELLS

Then one day the man escaped to his forgotten trail in the woods, where he'd found the sparrow with the broken wing. Under autumn trees he dug a deep hole to lie in. The man removed his clothes and placed them beside the hole he'd dug, in a metal box that he had brought for just that purpose. Throwing the metal box's key into the bottom of the hole he'd dug, he covered it with dirt scattered from his jump, and his naked body, when he lay down in relief.

The wind blew, leaves fell, and the man lay quiet under a fire colored covering of yellow, orange and red leaves. They crinkled, smelling like the earth when he breathed or moved. Within a few days, he heard the bark of dogs, and voices of men approaching, and his tears filled his ears when they began digging through the leaves to uncover his place of rest.

The cops laughed, and with much eye cutting, shook their heads in pride. What easy prey he had been for their satellite surveillance to track his whereabouts, using psych-med nanobyte uplinks and downloads.⁹

They tightly wrapped and strapped the man's arms in canvas, a cross his chest. With feet shackled by a foot long chain, hair hardened into grease-matted-cords, in a windless room, with barred-out sky behind ceiling-high windows, the man stood surrounded by padded walls.

Then came the song. The most beautiful song in the world. He knew it well, from the broken wing sparrow who could not hate its bones. But this was the man's song, who would not hate his chains. His strength was gone, his hope become despair, and the song was not of himself, but of his love for his creator. He sang to God -- a God of peace and love and power. A God who was there.

Then the man heard a med-tech pass by his metal door and join his thanks to God. Hers was different, though the same. She proudly obeyed the laws, and had a job that would provide money enough for others to change her flat tires. She was socially respected, approved, and empowered to be entrusted with the keys to the man's mental hospital cell.²¹

Chapter V.¹

II. THE ARTICLE -- 'WHO WILL LISTEN?'

1. FREE WILL AND MANDATORY MEDICAL-CULT MICROCHIPS OR FFF

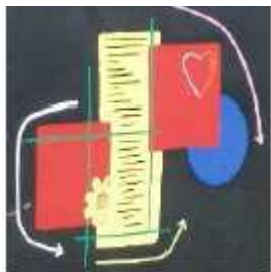

The Holy Bible reveals man's exaltation against God, and God's mercy to mankind through Jesus Christ's atonement for their sins. Whether people accept His gift of salvation by faith, and repent of the world's dead works, is each individual's free will offering to God. He gave men a choice to receive the truth and act on it, or continue willful lives. The pursuit of truth is, however, not fashionable at this time because Social Order through government control is the catalyst for change -- not life. ²

The 1949 classic World Book Encyclopedia definition of Religion stands on its own in the face of dictionaries edited by social engineers: "Many scholars have been inclined to define Religion as belief in gods or supernatural beings. But this by no means includes all the religions, because **religion has often meant a way of living** rather than a way of believing. And there have been many who have denied or been indifferent to any kind of god. Most scholars today think that **religions have been concerned first of all with the values which were believed to give the most satisfying life**. Every religion of history is made up of these three elements. The **ideal** consists of the values which the group tries to attain. **The cult, which is the practices and ceremonies by which these values are thought to be won. The theology, or world view which connects this search for values with the forces of the universe** around man."

Social Order or Control, recognized as a religion,³ utilizes a scientific theology and medical-cult evangelizing much like the sun worshipper's blood and body-part sacrifices to their gods -- 'Practice the same, or be practiced on'. Their evangelistic propaganda provides slave-sacrifices of state-victims ordered to clone-up or be mentally incarcerated for socially deviant conduct. Whichever; the State's Nebuchadnezzar alter ego definitely fulfills a dietyship authority role. Their way or no way is a haunting of the European's settlement of North America.⁴ Now what is the U.S. doing?

Indenturing bondsmen, under state imposed debts, to serve in work camps, for the betterment of The State . . or was that Red China and the communist take over . . or maybe it still is? ⁵

Free Will -- An individual chooses their course of actions and incurs the consequences. We can still do that. It's just that our choices have been engineered to format into Welfare State Control Government Systems that funnel victims into the State's Social Order religion, and steals everything that conflicted-conformists value! ⁶

/scj

At first you might consider the antithesis of State Control to be the autonomous practice of different religious beliefs. Of course, the conflict between differing religious beliefs has always been to not usurp another's religious freedom. Sacrificing a neighbor to 'your' god would prevent their continued religious cult practice of proselytizing testimonies about their god's forgiveness and love. So then, we understand that the religion of Social Control still allows others to have different religious beliefs, but not practice their cults without punitive eradication enforcement. They are the big dog on top of their religious hill, and you can't have their bones!

The Holy Bible God is merciful and just, allowing mankind a place of repentance and just provision, while the State Social Control System restricts, absorbs, and operates at an unjust malfunction level, destroying men's hopes and self esteem -- basic manipulation by degradation.

Environmental sabotage through *Ultrasound - Radio Waves - Electromagnetic Frequencies - Fall-out and Pollution* denies the sanctity of men's spirits and creative works, decrying brainwashing and insanity for anything different than postulated government doctrines based on their Social Order scientific-cult evidences.

Intuitive perceptions that may require an individual's personal or affiliate's interpretive associations is subject to various scientific-cult evaluations that reject many religion's beliefs that validate the spiritual accuracy of the experiences. And the Bible based Christian sects that believe and observe cult practices identifying their bodies, as God's temple, which they choose not to defile through "medical practices" are denied the right to practice their religious beliefs¹⁷ when subjected by law to the violation of internalized (IC) microchipping with its vulnerability to environmental impact. Couldn't this possibly be "the abomination of desolations upon the altar"?

II. 1. - continued -

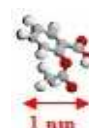

While enforcing godship over freemen's lives, the world's systems are escalating out of control, in their rebellion against God! Broken lives are seeking solace in Environmental Illness⁸ Support Groups for chemical and electromagnetic hypersensitivity, while environmental chemical, electromagnetic, and radio wave pollution bombards the ignorant masses of the nations. Now we hear tales of combatant sub and surface governments trying to prevent or outdo militant criminal coups,^{10,20} through ultrasound-wave control of the masses, that the criminals have brainwashed into satellite-slave-soldiers; their Apocalyptic ~~SSS~~ Cyborgs. Not to mention the Social Profiling of Social Order Nonconformists, with the remedial Terrorist Assessment and Control Treatments including, but not limited to -- Ground Penetrating Radar Viewing, Ultrasound Knockout for Med-chip Implant Tracking, Mental and Physical Entrapment Programming, and Financial-Social Entrapment. Anyway you look at it, it's a win-win situation for the Paranoids -- it's all real!^{6,7}

I don't know guys, but it seems pretty obvious that more (IC) microchips dumped into the environment is only going to create more chaos, with all the Radio Wave and Electromagnetic fall-out and / or overriding of the original systems through sabotage warfare.

'What do you say', we all do the big Jesus thing and trust God! . . . I mean, haven't you heard about the stuff that's going on? Almost all the crap I hear the neighbors going under medical treatment for is classic ultrasound-wave side effects. *Please*, take the time and look up some of the included Study References.⁸

II. 2. NANOTECHNOLOGY⁹ AND 'MICRO-SHIP CYLON RAIDERS'¹⁰

What is smaller than a dust mote or pollen on the breeze, and more sinister than a Cylon Raider? The robot spawning a Cyborg.^{10a}

A nanometer is about the size of a small molecule, or a few atoms.

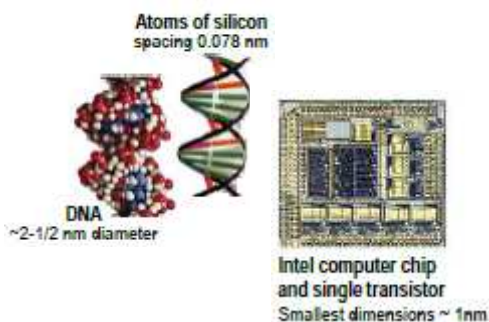

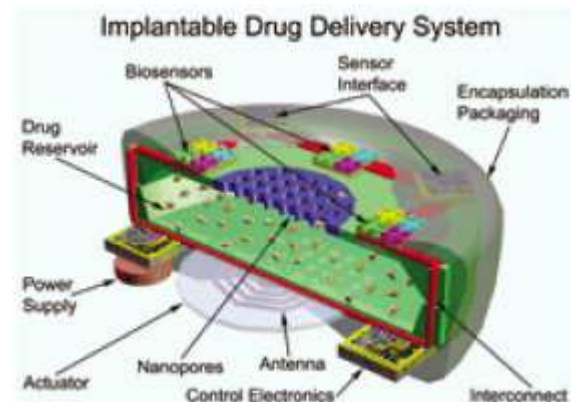

As with the fabrication of integrated circuits (IC's), nanotechnology is based on building structures and systems at the sub-micron scale of 1-100's of nanometers. It can involve combinations of many types of systems, including electronical, mechanical, chemical, and biological, such as optical. It generates enhanced performance, new properties and applications, such as silicon nanowire solar cells, nanoelectronic power sources and sensors, and helicopters the size of flies.

Through the self-assembly of atoms and molecules in chemical and biological systems, atomic-molecular sized artificial body parts and implantable drug delivery systems have now given computers the ability to override life, the bodies' natural functions, and autonomous will.

Red Blood Cells
& Nano System

A friend called not long ago, from the middle of national parks in the continental divide area of Idaho. She asked a strange question, "Why would the internet weather site have a notice about testing the local communities, for DNA changes?"

Generally, the term CYBORG refers to humans with bionic, or robotic implants, including the Brain-Computer-Interface, in which they experience restored function or enhanced abilities, due to the integration of artificial components or technology that rely on some sort of feedback. People enhanced beyond their original biological characteristics are part of the 'transhumanism evolution'. Essentially, a cyborg is a man-machine system in which the control mechanisms of the human portion are modified externally by drugs or regulatory devices enabling the being to live in an environment different than they would otherwise experience.

Cyborg Mainliners have an inner-space to outer-space open computer connection, whereas 'hi-tech plug-ins' can disconnect and ... sit on a rock?^{8,9}

Is the right to be informed inherent in free will choices, or have we become 'aliens,' subject to the deceptions and perversions of a sabotaged government's inter-system melt-down?

Are the lawmakers MOLESTERS, and the med-techs RAPISTS if they VIOLATE the bodies and minds of Nonconformists, or are they just RELIGIOUS ZEALOTS sacrificing Men's Free Will upon the altar of their Social Order god?

II. 3. *BAD VIBES* and BIO WARFARE CASUALTIES ⁸

Ultrasound - Radio Waves - Electromagnetic Frequencies - Fall-out & Chemical Pollution

Long Range Acoustic Devices [LRADs] using a "virtual acoustic source", or ultrasound, which contains frequencies far outside the range of human hearing, are completely inaudible. "Audio Spotlight" and other, modulated ultrasound technology weapons have been marketed in the U.S. since the late 1990's. These weapons project a beam of sound over a long distance, to be heard only in a small well-defined area; a listener outside the beam hears nothing. HyperSonic sound weapons focus two ultrasonic waves of differing frequencies toward a point, giving the illusion that the audible sound from their interference pattern was originating at that point.

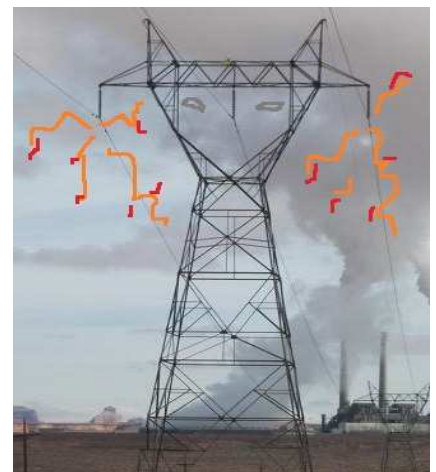

The military sonic weapons that emit highly-directional high intensity sound do not use ultrasound. Psychotronic and Non Lethal Electromagnetic Weapons use sensory applications in an "instillation of information into the consciousness or sub-consciousness of humans, on a subliminal level, causing faulty perception of their reality, (and blocking their free will)" with technological modalities used in the remote control of human brains.

Neurotransmitters are part of the natural physiological system, which cause the firing of neurons in the brain, and pulsed microwaves change the concentration of neurotransmitters in the brain, reinforcing or attenuating the effects of drugs delivered into the brain. LRADs can put people to sleep, keep them awake, cause the subjects to experience heat sensation, and interfere with concentration on complex tasks, to name a few of their applications.

The International Radiation Protection Agency, and various government's ratings and recommendations for health exposures to LRADs verify inconsistent standards. The greater global concern appears to be the *ethics* of subjecting masses of people to "*behavior controlled by stimulation*" that is transcribed into ultrasound frequencies delivered through words into the brain, with the concern that the victims would perceive those words as their own thoughts.

However, the physical effects of ultrasound and electromagnetic waves is fast becoming pandemic, fortifying the medical-cult practices of the growing global Social Control religion!

High-amplitude sound of a specific pattern, at a frequency close to the sensitivity peak of human hearing (2–3 kHz), is used as a burglar deterrent; while Sonic Weapons, using extremely high-power sound waves can disrupt or destroy the eardrums of a target and cause severe pain or disorientation, incapacitating people. Less powerful sound waves can cause humans to experience nausea or discomfort. Physical symptoms from exposure to more intense ultrasound over 140 dB, near the audible range (20–40 kHz) can lead to a syndrome involving manifestations of nausea, headache, tinnitus, pain, dizziness and fatigue. The use of these frequencies to incapacitate persons has occurred both in counter-terrorist and crowd control settings.

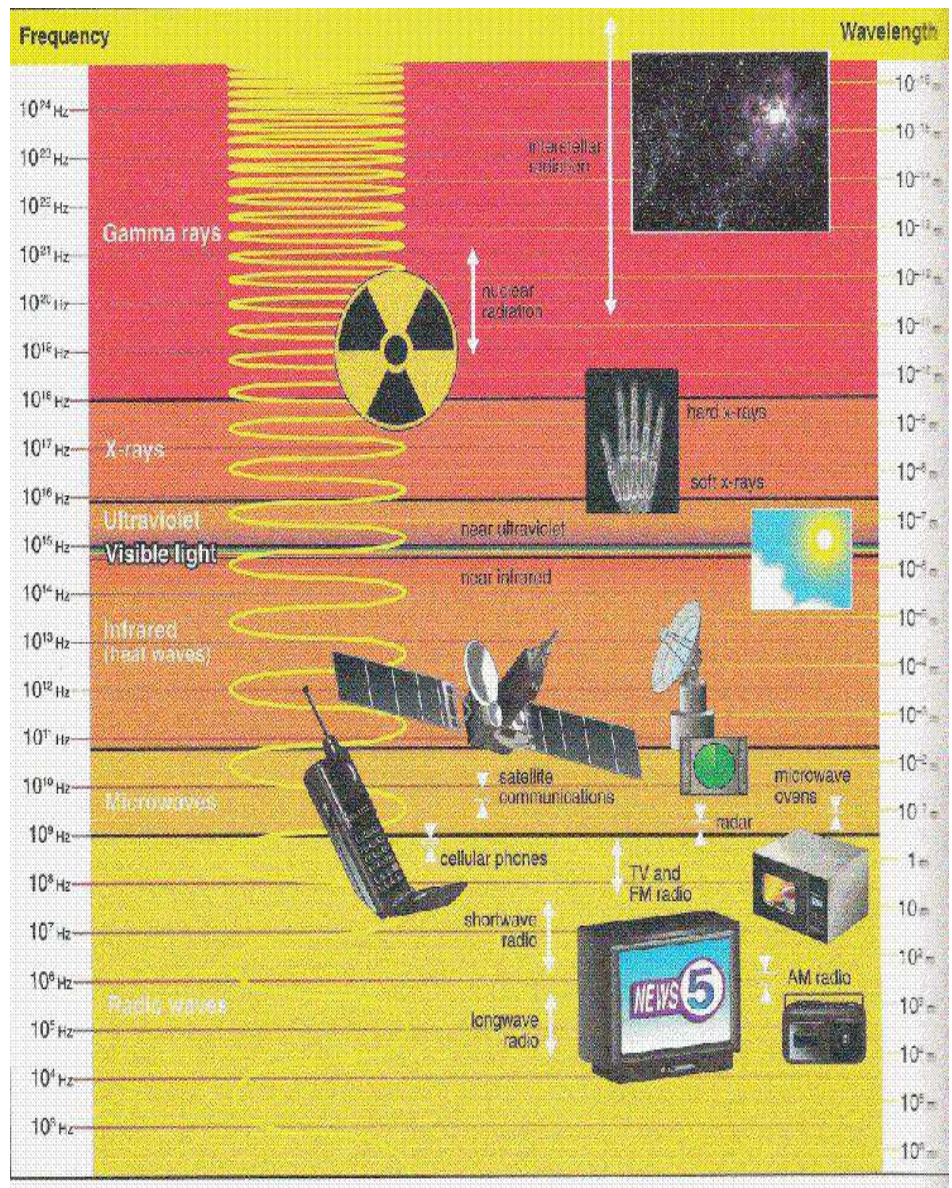

/scj

II. 4. THE ELECTROMAGNETIC SPECTRUM

- II. 3 continued -

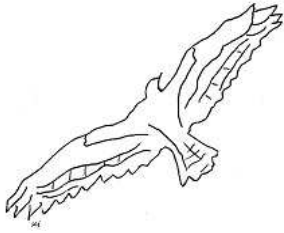

The Microwave (Auditory / Hearing / Frey) Effect, consists of audible clicks, or spoken words, induced by pulsed or speech modulated microwave frequencies generated directly inside the human head, and generally perceived as auditory sensations of clicking or buzzing. It's used by Law Enforcement for mob deterrence, and targeted subject incapacitation, causing dizziness, headaches, and sensory perception like pins and needles. "Accurate Hearing" mind control technologies, based on microwave signals transmitting sounds and thoughts into victim's heads, is used as a form of electronic harassment, and referred to as "voice to skull" or "V2K" technology.

The assortment of ID tags for the bio-effects of environmental ultrasound and the associated electromagnetic fields can be summarized as Electromagnetic Hypersensitivity. Severe symptoms can range from, but are not limited to include headache; tinnitus; extra-aural events (unrelated to hearing); dizziness; memory deficits and mental process, behavior, and emotion response modification; irregular heart beat; fatigue, stress-to-terror; severe pain episodes; sleep disturbances; skin symptoms like prickling, burning sensations and rashes; pain and ache in muscles; nausea; metallic taste; subliminal or autonomic, conscious effects including increased rates of stroke during geomagnetic events, aurora sensitivity, phosphenes and blindness; central nervous system and cardiovascular changes or muscular excitation; internal tissue tearing and internal organ malfunctions (adrenal exhaustion); and pharmaceutical attenuation.

So, while different 'Med-Sects' squabble over doctrinal precepts to validate their classifications of LRAD's physiological side effects, health insurance merges into a national tracking program, and deals with, the more definitively described, Bio Warfare Casualties. Meanwhile, 'Joe Blow's' family still don't know nothing about what's happening or how to protect themselves from *BAD VIBES*, and just keep on pumping themselves with pharmaceuticals designed to mask and override, instead of heal the root causes of symptoms caused by the convergence of an environmental overload of Ultrasound - Radio Waves - Electromagnetic Frequencies - Fall-out Pollution!

III. A NATION AFRAID TO SPEAK, AND GOD'S PROMISES

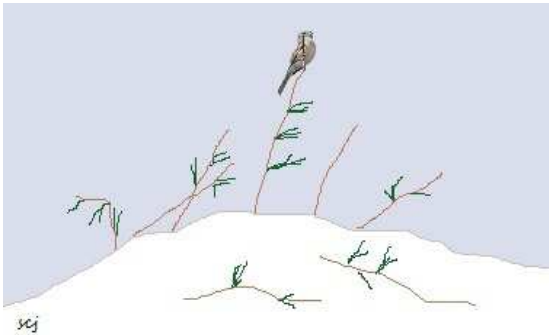

When people of a nation are afraid to speak or publish what they believe, because of the consequences to themselves, their family and friends, church, associates, business and educational pursuits, personal possessions, properties and financial assets, dreams and goals; they are not really free to speak -- they have become burdened to speak their peace.

And if we speak in fear of the consequences to those who hear us, whether they act out of agreement or different motivations, then we know that we are fighting for a freedom lost to deceptions. And then we speak our truth to the wall of salvation. It has no eyes, nor ears, just the blood of our forefathers and the witness of angels.

I believe it was Jesus Christ who did it best, and for all men, when He allowed the bigots and clones of His day, to *TORTURE AND CRUCIFY* who He was and everything He stood for, so that His *SINNLESS BLOOD* could *CLEANSE A WORLD OF SINNERS*, through their *FAITH IN HIS SACRIFICE OF LOVE FOR THEM*.¹¹

So when I speak to a listening ear, know that it is not out of my need to be heard, nor is it to sway your actions -- because I will not bear the burden of them for you, nor will I judge you for them. No, I speak because I firmly believe the truth should be heard, with all of its power to heal the broken hearted and bring deliverance to the captives.¹²

Come on America, stand!^{6,13} *Come on People of the Nations, stand! Yes, Bible prophecies indicate destruction, but, THE PROMISES OF GOD STAND TRUE*¹⁴ -- *Jesus came to bless and give us abundant life.*¹⁵ *"For I know the plans I have for you says the Lord. They are plans for good and not for disaster, to give you a future and a hope."*¹⁶

WHEN DOESN'T GENOCIDE, MURDER AND TORTURE NOT MATTER?

Are we **TRULY SUPPORTING A SYSTEM** that **RESPECTS HUMAN LIFE** and **HONORS HUMAN RIGHTS**, or are we exhausted, terrified, greedy bigots that disregard the human rights of people standing in the way of our getting what we need and want?

GENOCIDE: the deliberate and systematic destruction, in whole or in part, of an ethnic, racial, religious, or national group.

WAR The goals of offensive warfare are typically **the submission, assimilation or destruction** of another group in an organized violent conflict, typified by extreme aggression, societal disruption and adaptation, and high mortality.

Unlawful Combatant: Civilian who directly engages in armed conflict in violation of International Humanitarian Law (IHL) and may be detained or prosecuted under the domestic law of the detaining state for such action.

Black Site: Black project, secret prisons operated by CIA outside U.S. territory and legal jurisdiction, in its War on Terror, to detain Unlawful Enemy Combatants.

Extraordinary Rendition and Irregular Rendition: Description of the abduction and extrajudicial transfer of a person from one nation to another. "Torture by proxy" is used by some critics to describe situations in which the United States has transferred suspected terrorists to countries known to practice torture.

Forced Disappearance: A forced disappearance (or enforced disappearance) occurs when a person is secretly imprisoned or killed by agents of the state or by another party, such as a terrorist or criminal group.

III. APPENDIX I. ¹⁷

FFF or 666: Ultrasonic sound waves applied by FFF [*Field-Flow Fractionation*] (or 666) to MMEA [*Multiple Micro Electrode Array*] chips implanted into the median nerve or brain.

In the Greek alphabet the letter F also represents the number 6.

The 'scientific world's' common usage name for the method of Field-Flow Fractionation is **FFF**, the separation and sizing of macromolecules and particles, and is used in biotechnology in the micromanipulation of biological cells.

Could John have possibly read FFF as 666 in the Biblical prophecy of Revelations 13:16-18? "And he causeth all, both small and great, rich and poor, free and bond, to receive a mark in their hand, or in their foreheads: And that no man might buy or sell, save he that had the mark, or the name of the beast, or the number of his name. Here is wisdom. Let him that hath understanding count the number of the beast: for it is the number of a man; and his number is Six hundred threescore and six. [666]."

Ultrasonic sound waves applied by FFF to MMEA chips implanted into the median nerve or brain will break-up physiologically generated and responsive neural firing, over-riding it with BMI* computer simulated patterns that replace man's independent physiological process control. [**Brain Machine Interface: Computer Hardware/Software connects to brain and nervous system, receiving and transmitting electrical signals.*]

Acoustic Radiation or Ultrasonic Waves programmed to break-up man's natural neural firing are transmitted in FFF form via satellite to an MMEA chip implant. These BMI computer generated electrical signals simulate, over-ride and replace natural neural electrical patterns to control mental, emotional, and anatomical processes.

The BMI hardware, software program also transmits via RF [*Radio Frequency*] from the transponder interface built into the MMEA. The 100 individual electrodes implanted in the median nerve each transmit through a 25-channel neural signal amplifier, amplified by 5000 and filtering corner frequencies of 250Hz and 7.5Hz. The amplified and filtered electrode signals are then delivered to the neural signal processor where they are digitized at 30,000 samples/second/electrode and scanned online for neural spike events.

U.S. Homeland Security has recognized the potential of this technology and is financing research through DARPA [*Defense Advanced Research Projects Agency*] funding.

Via BMI satellite transmissions, an MMEA chip recipient can experience identical physical, emotional, and mental processes to a recipient on the other side of the world.

Used for social conformity, FFF can sedate or agitate an entire community.

A community covered by a wireless cloud, such as cell phone and wifi internet access require, can be united by FFF transmissions via RF to MMEA chip implants. All that's needed is a RF transmitter and receiver tower receptive to a telecom link via satellite. Thus the manifestation of the New World Order's global consciousness on an individual basis is accomplished by FFF.

Psychiatric Right To Be Informed

The Right To Be Informed

In general medicine the standard for informed consent includes communicating the nature of the diagnoses, the purpose of a proposed treatment or procedure, the risks and benefits of the proposed treatment, and informing the patient of alternative treatments so he can make an informed, educated choice. Psychiatrists routinely do not inform patients of non-drug treatments, nor do they conduct thorough *medical* examinations to ensure that a person's problem does not stem from an untreated medical condition that is manifesting as a "psychiatric" symptom. They do not accurately inform patients of the nature of the diagnoses, which would require informing the patient that psychiatric diagnoses are completely subjective (based on behaviors only) and have no scientific/medical validity (no X-rays, brain scans, chemical imbalance tests to prove anyone has a mental disorder).

All patients should have what is called a "differential diagnosis." The doctor obtains a thorough history and conducts a complete physical exam, rules out all the possible problems that might cause a set of symptoms and explains any possible side effects of the recommended treatments.

There are numerous alternatives to psychiatric diagnoses and treatment, including standard medical care that does not require a stigmatizing and subjective psychiatric label or a mind-altering drug. Governments should endorse and fund non-drug treatments as alternatives to dangerous drugs that have been proven no more effective than placebo, and more dangerous than most street drugs. B. PSYCHIATRIC LIVING WILL

The following declaration should be signed and, where possible, witnessed, in addition to a notary public, by a trusted family member and/or confidant. Make several copies of the document with each copy notarized. Courts may not recognize the Living Will unless you have it filed with an attorney/lawyer, so provide a copy to your appointed legal representative and to each of the person(s) named below. It is also recommended that a copy of this be forwarded to CCHR International or nearest local CCHR chapter available at (www.cchr.org--global locator address). CCHR International's address is 6616 Sunset Blvd., Los Angeles, California, United States, 90028.

PSYCHIATRIC "LIVING WILL"

(Advance Protective Directive)

I, _____ born on _____ in _____,

current address _____.

being of sound mind, willfully and voluntarily make known my desire that should it be so considered or decided that I be subject to involuntary incarceration or hospitalization (also known as committal and certification) in psychiatric procedures, including psychotropic drugs (including, but not limited to antipsychotics, antianxiety drugs, benzodiazepines, tranquilizers, antidepressants, psychostimulants or mood stabilizers) or any other physical or biological psychiatric therapy, [including any nanotechnology' micro-chip meds, artificial body parts and implantable drug delivery systems]; I direct that such incarcerations, hospitalization, treatment or procedures not be imposed, committed or used on me.

I refuse contact with and treatment by any psychiatrist, psychologist or other mental health practitioner as these practices, according to my personal, philosophic and/or religious convictions, do not adequately or properly diagnose and such diagnoses can constitute a false accusation about my behavior and/or beliefs and practices, are stigmatizing and therefore a threat to one's reputation and physical and mental well-being. Any of their treatments, given against my express wish, are an intrusion upon and thus an assault on my body and constitute, in my view, assault.

Among other situations, the above directions and positions apply in any case where my capacity or ability to give instructions may be or may be claimed to be impaired, or should I be in a state of unconsciousness, or should my communication in an actual and/or legal sense be impossible, or where any psychiatrist, psychologist, mental health practitioner, or law enforcement official or person asserts that the matter is a "life-saving" situation requiring emergency intervention and/or treatment under any involuntary commitment law or similar legal authority.

In the absence of my ability to give further directions regarding the above, it is my intention that this declaration be honored by my family and physician(s) as an expression of my legal right to refuse medical, psychological, psychiatric or surgical treatment.

The attorney / legal representative mentioned below is appointed and authorized to institute appropriate proceedings on my behalf should the above declaration be violated and have my permission herewith to proceed with whatever criminal and/or civil procedures necessary to rectify such a violation.

I herewith authorize the following person(s) with the enforcement of this declaration of intention:

Name of Attorney / Legal Representative

Contact Information

Family Member or Other

Contact Information

The declaration is also binding for my lawful agents, guardians, family, executors or any person with the legal or other right to take care of me or my affairs.

IV. AUTHORS NOTE

When I was a girl, my Granny would sing me a sweet little song in her gentle, small voice. That song became mine, and it became my definitive headstone; the caption of my life.

When you sing the song, please don't think of me. Rather, let's remember what love our Creator gave us in all life!

There once was a bird that sat up in a tree,
C4 G3 A A# A F

And all it could whi-stle was *twee-dle-dee-dee*,
C4 D A#3 C4 D C A3

Twee-dle-dee-dee, twee-dle-dee-dee.
F4 D C A3

All it could whis-tle was *twee-dle-dee-dee*.
A# G A A# A F G F

Look at the birds of the air, for they neither sow nor reap nor gather into barns; yet your heavenly Father feeds them. Are you not of more value than they? ²²

I HAVE NEVER BEEN ABLE TO UNDERSTAND HOW LOGICAL THINKING COULD CONCLUDE THAT ALL CREATION, IN IT'S GLORIOUS REPETITION OF PATTERNS, IS THE CONSEQUENCE OF CHAOS COSMOLOGY; AS PRESENTED IN THE 'BIG BANG' CREATION THEORY.

SALVATION THROUGH JESUS CHRIST, *Holy Bible Scripture References:*

For all have sinned, and come short of the glory of God; Being justified through the redemption that is in Christ Jesus. Whom God hath set forth to be a propitiation through faith in his blood, to declare his righteousness for the remission of sins that are past, through the forbearance of God. *Romans 3:23-25*

For the wages of sin is death; but the gift of god is eternal life through Jesus Christ our Lord. *Romans 6:23*

Not by works of righteousness which we have done, but according to His mercy He saved us, by the washing of regeneration and renewing of the Holy Ghost. *Titus 3:5*

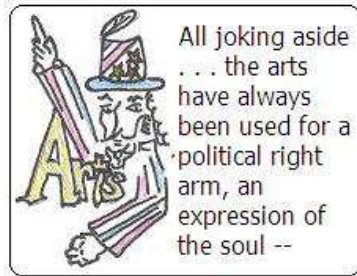

Jesus said to him, I am the way, the truth, and the life: no man comes to the Father, but by me. If you had known me, you should have known my Father also: and from now on you know him, and have seen him. *John 14:6,7*

You must repent of sin, or perish. *Luke 13:3*

If we confess our sins, he is faithful and just to forgive us our sins, and to cleanse us from all unrighteousness. *1 John 1:9*

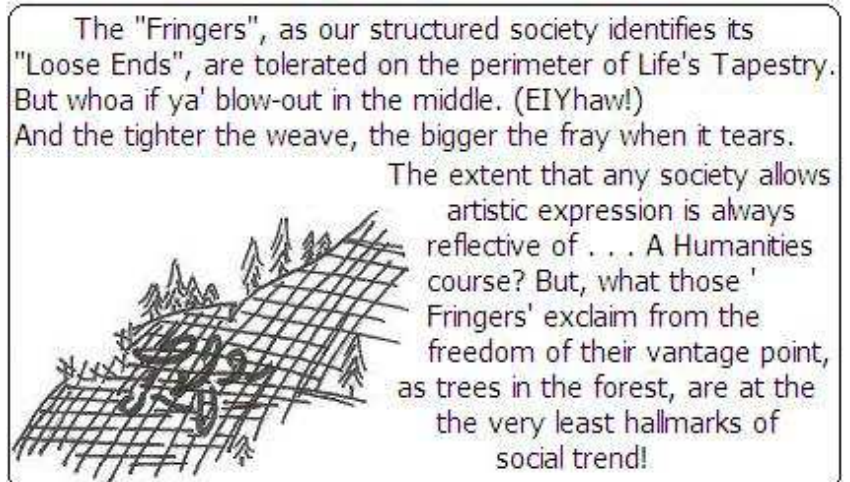

I have heard you in an accepted time, and in the day of salvation have rescued you: Behold, now is the accepted time; behold, now is the day of salvation. *2Cor 6:2; Isa 49:8*

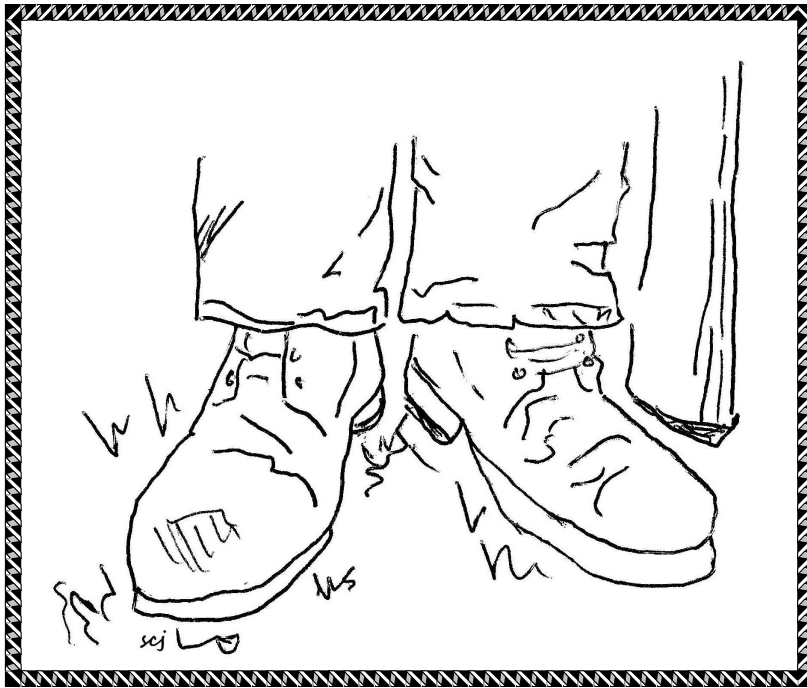

"Whoever will confess me before men, him will I confess also before my Father which is in heaven. But whoever will deny me before men, him will I also deny before my Father in heaven," said Jesus. *Matthew 10:32,33*
